## **Save Time and Money with our Complete Payroll Service**

In today's competitive business world, it is important to make the most effective use of time. Outsourcing routine tasks, such as payroll, means you have more time to focus on your business.

If you are doing your payroll in-house, it can be both time-consuming and complicated. And keeping up with legislation and tax changes can be an added headache.

We have a dedicated payroll department, headed up by David Barber, who has 15 years experience. We have well-trained staff and we use the very latest computer software.

Specifically we can:

- Prepare your weekly and monthly payrolls,
- Deal with your monthly CIS,
- Complete P11D's, P60's and P35's,
- Ensure that you meet the key dates and deadlines for PAYE and National Insurance, and
- Do all this at a competitive price.

Please contact our Leslie Eriera or David Barber on either of the telephone numbers above – where our team would be delighted to assist you.

P.S. Payroll is a hassle and best outsourced to a specialist firm!
